How to type German letters with an English language keyboard?

There are several ways. Below are three possibilities:

Press "Alt" and hold it, and enter the codes from the **numeric keypad**.

Ü = Alt + 154

ü = Alt + 129

ß = Alt + 225

Alternatively, you can use certain keystroke combinations on your keyboard. But first, you must [set your keyboard to the United States-International keyboard](#). To do that, follow the general steps below:
